## PROJECTS

### • Weather Forecast Website

*Description* - I developed a straightforward weather website project that employs HTML, CSS, and JS. It actively retrieves weather data and promptly showcases it to users, ensuring they receive real-time weather updates.

*Languages used* - HTML | CSS | JS

### • Book Store Management System

*Description* - I have created a Book Store Management System with comprehensive CRUD operations, enabling the users to add, read, edit, delete & store the book details through a seamless web interface.

*Languages used* - Springboot | MySQL
